

**The Renfrew Center Foundation Conference  
for Professionals 2019**

**POSTER WORKSHOP APPLICATION**

Poster presentations allow presenters to share new research findings on eating disorders and approaches to treatment. This may include research studies (exploratory studies, single subject or group case studies, or randomized controlled studies), reviews of current research and/or discussions of theoretical issues in the field visually on poster board. If accepted, authors are expected to present their findings and answer attendee questions during the Poster Session on Saturday evening and will feature the work of both senior and junior investigators. Graduate students are encouraged to submit proposals.
