

The Renfrew Center's commitment to each patient's recovery does not stop at discharge. Recovery is a journey that cannot be navigated alone — Renfrew recognizes the vital importance of alumni staying connected to a community where thoughts, feelings and experiences can be shared and supported.

Since it was founded in 1985, Renfrew's experience with more than 100,000 patients has given us the wisdom, resources and clinical expertise to provide our alumni with opportunities for lasting recovery. Through a wide array of free alumni services and resources, every patient receives ongoing support that reaches far beyond the actual grounds of our 17 treatment facilities.

Programs and services include:
